Professional Summary

Results-driven Python Developer with 2+ years of experience in designing, developing, and deploying scalable web applications. Strong expertise in Python, Django, PostgreSQL, and MongoDB with hands-on experience in RESTful APIs, data processing, and cloud-based applications. Proficient in Agile development, debugging, and optimization. Passionate about writing clean, efficient code and collaborating with teams to build high-quality software solutions.

Technical Skills

- **Programming Languages:** Python, JavaScript, SQL, HTML, CSS
- **Frameworks & Libraries:** Django, Pandas, NumPy, React, Bootstrap
- **Databases:** PostgreSQL, MongoDB, MySQL, SQLite
- **Tools & Platforms:** Git, Docker, Redis, VS Code, JIRA, PyCharm
- **Development Practices:** Agile Methodology, Test-Driven Development (TDD), RESTful API Development
- **Soft Skills:** Problem-Solving, Effective Communication, Team Collaboration, Quick Learning

Professional Experience

Python Developer

Audix Consulting Software Solutions Pvt. Ltd. | August 2023 – Present

- Designed and developed scalable backend APIs using Django and Node.js while building dynamic front-end applications with Svelte.
- Automated incentive generation workflows for PhD research projects, enhancing efficiency.
- Optimized database queries in PostgreSQL and MongoDB to improve response time.
- Integrated third-party APIs for seamless data exchange and automation.
- Conducted code reviews, debugging, and performance optimizations.

Python Full Stack Developer

Sun Bright Software Solutions Pvt. Ltd. (Eenadu Television) | April 2023 – August 2023

- Developed and maintained web applications using Django, PostgreSQL, and MongoDB.
- Improved an advertisement booking system's efficiency by implementing optimized backend logic.
- Built responsive UI components using Bootstrap and JavaScript to enhance user experience.
- Designed and implemented RESTful APIs for data exchange and automation.

Software Developer Trainee

Vector India | November 2022 – April 2023

- Assisted in software development, debugging, and testing for web-based applications.
- Gained expertise in database management and API development.

Naresh IT, Hyderabad | March 2022 – November 2022

- Developed a scalable e-commerce platform using Django, MongoDB, and SQLite.
- Created RESTful APIs and ensured UI responsiveness using React.
- Designed a real-time MCQ platform with an intuitive user interface.

Key Projects

1. **PhD Incentive Generator**
   - **Tech Stack:** Python, Django, PostgreSQL, MongoDB
   - Developed a secure and automated system for incentive generation based on research contributions.
2. **Task Management System**
   - **Tech Stack:** Python, Django, PostgreSQL, MongoDB
   - Built a real-time task tracking dashboard to streamline project workflows.
3. **YouTube Channel Data Fetcher**
   - **Tech Stack:** Python, API Integration, React, PostgreSQL
   - Automated the extraction of YouTube video data and comments into structured Excel reports.
4. **E-Commerce Platform**
   - **Tech Stack:** Django, MongoDB, React
   - Developed a secure, scalable online shopping platform with user authentication.
5. **Chat Application**
   - **Tech Stack:** Django, PostgreSQL, React
   - Developed a secure, scalable online chat application with user authentication.

Education

Master of Computer Application (MCA)

Vindhya Institute of Technology and Science, Satna | 2019 – 2022 | **CGPA:** 8.2

Bachelor of Science (B.Sc)

PG College Satna (Aps University) | 2016 – 2019 | **CGPA:** 5.8

Certifications

- **Certified Python Developer** – Naresh IT, Hyderabad
- **JavaScript for Web Development** – Naresh IT, Hyderabad

Professional Development

- Completed Full Stack Web Development Bootcamp at Naresh IT.
- Participated in coding challenges on HackerRank and GeeksforGeeks.

Interpersonal Skills

- Strong Problem-Solving and Analytical Thinking
- Self-Motivated and Quick Learner
- Excellent Team Collaboration and Communication

Languages

- **English:** Proficient (Read, Write, Speak)

- **Hindi:** Native (Read, Write, Speak)

Hobbies & Interests

- Exploring new technologies and frameworks
- Traveling and playing cricket

-
